FOR IMMEDIATE RELEASE

MGC Diagnostics Corporation Reports Third Quarter Fiscal Year 2012 Operating Results

SAINT PAUL, MN (August 30, 2012) — MGC Diagnostics Corporation (NASDAQ: MGCD) (formerly Angeion Corporation (NASDAQ:ANGN)), a global medical technology company, today reported financial results for the third quarter of fiscal year 2012, ended July 31, 2012.

Third Quarter Highlights and Recent Developments:

- Total revenues increased 8% to \$6.9 million from \$6.4 million in Q3 2011;
- International sales increased 14% to \$1.3 million versus Q3 2011;
- Equipment sales increased 13% to \$4.1 million versus Q3 2011;
- Order backlog at end of Q3 2012 was approximately \$600,000 higher compared to Q3 2011;
- Recurring revenue in the third quarter of \$2.7 million accounted for 39% of total revenues in the quarter;
- Maintenance and service contract billings increased 22%;
- Strong balance sheet with \$8.7 million in cash and investments, \$12.7 million of working capital and no long-term debt;
- Rated #1 by MD Buyline User Satisfaction Survey in all categories, July 1, 2012;
- As announced earlier today, the Company sold the assets of its New Leaf business to Life Time Fitness (NYSE: LTM), effective August 28, 2012. Life Time Fitness paid the Company \$1.0 million at closing, and will pay an additional \$235,000 over the next 18 months.

For the third quarter of fiscal year 2012, total revenues increased 8% to \$6.9 million compared to \$6.4 million in the third quarter of fiscal 2011. Domestic sales for the third quarter totaled \$5.6 million, compared to \$5.3 million in the previous year's third quarter and international sales were \$1.3 million, versus \$1.1 million in last year's comparable third quarter.

During the third quarter, equipment, supplies and accessories sales totaled \$5.9 million, compared to \$5.3 million during last year's comparable quarter. Service revenues for the third quarter decreased \$47,000, or 4.4%, to \$1.02 million versus \$1.07 million in last year's third quarter. The decrease in service revenues for the quarter reflects the Company's strategic decision to no longer support older customer equipment and to focus on transitioning those customers to newer MGC Diagnostic equipment. For the third quarter of fiscal 2012, income from discontinued operations was \$147,000 (see "Discontinued Operations" below). The Company reported a net loss of \$133,000, or (\$0.03) per diluted share, versus net loss of \$81,000, or (\$0.02) per diluted share, in the comparable quarter last year.

Gross margin for the quarter was 53.7% compared to 57.5% in the third quarter of fiscal year 2011. This decrease is due in part to lower margin Group Purchasing Organization (GPO) sales accounting for a higher percent of fiscal 2012 Company sales.

General and administrative expenses in the third quarter of fiscal 2012 totaled \$913,000 versus \$916,000 in the comparable quarter last year. Sales and marketing expenses including GPO fees were \$2.1 million compared to \$1.6 million in the third quarter of fiscal year 2011. Research and development costs were \$825,000 compared to \$924,000 in last year's third quarter, reflecting an additional \$100,000 of capitalized software development costs booked during the just completed third quarter.

For the nine month period, the Company reported total revenues of \$18.9 million compared to \$19.1 million in the first nine-months of 2011. For the nine months of fiscal 2012, income from discontinued operations was \$277,000, compared to a loss of \$518,000 in fiscal 2011 (see "Discontinued Operations" below). The Company reported a net loss of \$791,000, or \$(0.21) per fully diluted share, compared to a net loss of \$543,000, or \$(0.14) per diluted share in the comparable nine-month period of fiscal 2011.

Gregg O. Lehman, Ph.D., president and chief executive officer of MGC Diagnostics, said, "We are pleased with the operating progress made during the quarter, as well as with the ongoing rebranding and repositioning of the company. Considering the global economic challenges, we are pleased with the 14% increase in international sales and the 13% increase in worldwide equipment sales. Our new Executive Vice President – Global Sales, Matt Margolies and our Executive Vice President – Global Marketing and Corporate Strategy, Todd Austin are clearly having a positive impact on our sales process and are generating measurable results in the early going. This gives me great optimism for 2013 and beyond.

"The portion of our business from Group Purchasing Organizations (GPOs) nearly tripled to 52% of total sales in the third quarter of fiscal 2012 compared to 19% in last year's third quarter. I believe it's important to note, GPO sales are domestic only sales and accounted for 63% of the Company's third quarter domestic sales compared to 24% last year," said Dr. Lehman. "Although our GPO sales are at lower margins than our traditional sales, we believe this will continue to be a dependable sales channel for MGC Diagnostics going forward. This gives us the flexibility to focus our inside sales group on lead generation to provide our sales force qualified leads that can shorten the sales cycle and make our sales force more efficient. Additionally, our sales force is having measureable success in converting our customers with older equipment into purchasers of new equipment. Maintenance and service contract billings increased 22% for the quarter, a positive trend we are dedicated to build upon. We are also pleased with the 200% expansion of our backlog from the third quarter last year."

Dr. Lehman continued, "As you are aware, we recently announced a corporate rebranding initiative that included a change in the name of the Company to MGC Diagnostics Corporation. We believe that the new name more clearly communicates to our medical industry customers that we provide leading-edge cardio-pulmonary diagnostic technology based on the long and distinguished reputation of our MedGraphics brand. MGC Diagnostics will be a more proactive, forward-looking organization with a renewed dedication to product innovation, unmatched customer service and support, and always anticipating and creating solutions, technologically as well as in customer support, to solve unmet needs.

"As part of the rebranding initiative we have introduced a new logo, a new website, a new corporate identity package, and a new ticker symbol. The development of these new corporate

branding initiatives had a moderate negative impact on the financial results of the just concluded third quarter, but we believe we will generate a solid return on our investment in the coming years."

Dr. Lehman concluded, "All in all, we are pleased with the continued progress in repositioning this company for consistent growth and profitability in the coming years. With our rebranding and corporate initiatives completed, we anticipate a very bright future for the Company.

Discontinued Operations

In reporting these results for the three and nine months ended July 31, 2012 and 2011, the Company is presenting results from its New Leaf business line as "discontinued operations." In December 2011, the Company announced that its Board of Directors had determined that it would seek strategic alternatives, including the possibility of a sale, of the New Leaf business and that it had hired an investment banker to assist it in this process. In May 2012, the Company entered into a letter of intent with a non-affiliated third party for the sale of the New Leaf business. The Company announced earlier today it sold the assets of its New Leaf business to Life Time Fitness for \$1.235 million in a transaction that closed on August 28, 2012.

As a result, in this press release the Company has eliminated from its statement of operations all revenues and expenses associated with its New Leaf business and presented the income (loss) from New Leaf activities as "discontinued operations." The Company has also reclassified its results for prior periods in these financial statements to reflect this discontinued operations treatment for its New Leaf business line.
