INTRODUCTION

Purpose of this Manual

This installation manual provides instructions on how to install BreezeSuite™ cardiorespiratory diagnostic software for use with MGC Diagnostics Cardiopulmonary diagnostic devices.

The Installation Process

Obtain all of the required resources before installation. These include:

- A copy of the BreezeSuite v8.6 software media
- Appropriate Windows Administrator user credentials for the client workstation computer
- Your facilities policies regarding use and configuration of SQL Server Express configuration
- Network SQL Server Name, Instance Name
- BreezeSuite Network Database Names for Patient, Audit and Query Database (query database is optional)
- Network Database Authentication Type (SQL or Windows)
- If SQL Authentication used, Network Database Authentication Credentials (Username and Password)
- If Windows Authentication is used, you must be logged into the client computer as a valid Network SQL Database Windows user
- If a custom SQL Port is used for TCP/IP connection, the port number must be known.

Professional Installation Service

MGCD Diagnostics offers professional installation service (service fees apply).

Professional service installation benefits include:

- Remote or onsite installation service
- Scheduled and reliable software installation for minimal downtime
- Software configuration assistance
- Report customization assistance
- Predicted set configuration assistance
- Diagnostics testing screen customization assistance
- Application security configuration guidance
- Data conversion assistance
- Device communication verification

Please contact MGC Diagnostics to discuss the installation service options available.

Phone: 800-333-4137

Email: Support@MGCDiagnostics.com

SYSTEM SPECIFICATION: CLIENT

Required Operating System	Windows 11 (Pro or Enterprise) Windows 10 (Pro, Enterprise or Enterprise LTSB) Windows 8.1 (Pro or Enterprise) Windows 7 (Pro, Ultimate or Enterprise) Service Pack 1  Note: Windows 7 support ended January 2020
Processor	Intel Core Duo or Greater
Hard Disk	80+ GB Recommended
Memory	8+ GB Recommended
Display	1024 x 768 Resolution Minimum
System Type	x64 (64-Bit) Recommended X84 (32-Bit) Supported
Other Hardware	3+ USB-A Ports (if client connecting to diagnostic device)

SYSTEM SECURITY CONSIDERATIONS

Data at Rest Encryption

BreezeSuite 8.6 software supports the use of commercial off the shelf (COTS) Full Disk Encryption technology including Bitlocker configured for Federal Information Processing Standards (FIPS) Publication 140-2 compliance.

Data at Rest Prevention

BreezeSuite 8.6 software, when installed and connected to a Network SQL Database, supports installation without a local SQL Database. This new feature ensure no ePHI data at rest and removes the need to maintain SQL Server Express updates and patches. MGC Diagnostics recommends using this feature on all network clients where reliance on a local database mode is not required. This feature should be used on all networked physician review BreezeSuite installations as physician review can only be performed when connected to the network database.

Data in Transit Encryption

BreezeSuite 8.6 software, when installed and connected to a Network SQL Database, supports use of TLS 1.2 encrypted SQL Server connections. MGC Diagnostics recommends configuring your Network SQL Server and client for TLS 1.2 encryption.

SQL Database Connection Information Encrypted

BreezeSuite 8.6 software stores SQL database connection information in an encrypted file to prevent viewing by unauthorized users. Connection information can only be viewed by an authenticated user using the BreezeSuite DBTools application.

SQL Database Naming

BreezeSuite 8.6 software supports customizing the name(s) of the BreezeSuite application SQL Databases. This allows for additional database security as well as allows for hosting both Test/Development and Production BreezeSuite databases within the same SQL Instance.

Authentication in SQL Server

BreezeSuite 8.6 software supports use of Windows Authentication for BreezeSuite database SQL Logins/Users. MGC Diagnostics recommends using Windows authentication wherever possible.

BreezeSuite 8.6 software also supports the use of customized SQL Authentication usernames and passwords. MGC Diagnostics strongly recommends changing all default SQL Authentication user names and passwords to unique user names and strong customized passwords.

Authentication in BreezeSuite v8.6

BreezeSuite 8.6 software supports use of Active Directory authentication for BreezeSuite application users. See the Security Administrators Guide for additional details and configuration information.

Antivirus and Anti-Malware Software Policy

MGC Diagnostics has an open policy regarding customer's use of commercial off the shelf (COTS) antivirus and anti-malware software. Customers may install, update and patch anti-virus and anti-malware software without pre-approval from MGCD Diagnostics.

Operating System Update Policy

MGC Diagnostics recommends applying Operating System updates and patches on a regular basis. MGC Diagnostics does not provide a release schedule or list of approved updates and recommends installing updates as they are made available from the computer hardware and operating system manufacturer.

 **Important:** If updates are checked, downloaded or installed during diagnostic testing, this may result in degraded system performance, software errors and data loss

PRE INSTALLATION REQUIREMENTS

Update the Operating System

Verify all available Windows Service Packs, Updates and Patches have been installed

Windows Administrator Permissions Required for Installation

Domain Administrator permission required when installing BreezeSuite on a client computer registered to the Network/Domain.

Local Windows Administrator permission required when installing BreezeSuite on a client computer not connected to a network/domain.

Computer Naming Considerations

The BreezeSuite application registers system/workstation settings to the computer name. Whenever possible, perform computer name changes prior to BreezeSuite software installation to prevent loss of system/workstation settings in the application.

If replacing a computer due to hardware failure, renaming the new computer to the same computer name as the faulty computer will preserve the system/workstation settings in the application.

 **Important:** If a computer name change is required after installation on a system with the BreezeSuite local SQL Database feature installed, contact MGC Diagnostics technical support for guidance to avoid software down time.

 **Important:** Registering two or more active workstation computers with the same computer name to a BreezeSuite Network SQL Database will cause application issues. Unique computer names must be used for all active workstations when connected to a Network SQL Database.

When changing the computer name, updates to BreezeSuite registry keys will be required. By default, the local SQL Server name is the same as the local computer name.

BreezeSuite relies on DB Tools for database management. To update this, navigate to the Database Configuration screen located within DB Tools.

1. Prior to opening DB Tools, the BreezeSuite program must be closed.
2. Right Click on DB Tools and run the application as administrator.
3. Login to DB Tools using a BreezeSuite user name and password with the appropriate permissions.
4. Select the Admin tab and then select Database Configuration.
5. Confirm that the BreezeSuite database is not in use by selecting OK.
6. Update the local Server Name to reflect the updated computer name.

Prevent Windows Users from Changing Date, Time, and Time Zone

Recommend that Date/Time controls within Windows are implemented to ensure data integrity of the audit log.

Note: User must have administrator privileges.

1. Open Local Security Settings:
 - i) Press the Windows key + R together to open the Run command. Type **secpol.msc** and hit Enter to open the Local Security Policy window.
 - ii) On the left-hand side, Select **Local Policies -> User Rights Assignment**.
 - iii) On the right, double-click the "**Change the system time**" setting to modify.
2. Allow or Disallow Administrator and Users
 - i) Highlight **Administrators** in the Change the system time Properties. Do NOT remove LOCAL SERVICE.
 - ii) Click the Remove button to disallow administrators to change the Date and Time.
3. Allow a specific administrator (instead of all administrators) to have exclusive access to date/time settings
 - i) In the Properties window, click on **Add User or Group**.
 - ii) Click on the **Advanced...** button.
 - iii) Click on the **Find Now** button.
 - iv) Select the name of the specific group that will be allowed to edit Date and Time.
 - v) Click **Apply** and then **OK**. Restart the computer for this policy to take effect.
4. Repeat Steps 1-3 with the exception of double-clicking on '**Change the time zone**' instead of '**Change the system time**' in step 1(iii)

POST INSTALLATION REQUIREMENTS

Required Windows User Rights (Permissions)

All BreezeSuite users must have their Security User Permissions set to 'Full control' for the following folders and all child objects:

- C:\Program Files (x86)\Medgraphics\Breeze
- C:\ProgramData\MedGraphics\Breeze

Note: The C:\ProgramData folder is normally hidden.

All BreezeSuite users must have either a minimum of Full Control basic permissions or Query Value, Set Value and Create SubKey advanced permissions to the following registry and all child objects:

- x86 Operating Systems = H-Key-Local-Machine\Software\Medical Graphics Corporation\
- x64 Operating Systems = H-Key-Local-Machine\Software\Wow64\Medical Graphics Corporation\

Special Windows User Permissions required on Ultima Carido2 systems running Mortara XScribe software:

All BreezeSuite users must have their Security User Permissions set to 'Full control' for the following folders and all child objects:

- C:\Program Files (x86)\Mortara
- C:\Mortara Instrument Inc
- C:\ProgramData\MedGraphics\XScribe\

All BreezeSuite users must have their Security User Permissions set to 'Full control' for the following folder and all child objects:

- C:\ProgramData\ExamMgrData

Special Antivirus and anti-malware requirements on Ultima Cardio2 systems running Mortara XScribe software:

BreezeSuite and Mortara XScribe software communicate and store data in real-time during testing. The files exchanged in the following directories and/or files must be excluded from active scanning or software failure and data loss may occur.

- C:\ECG Data

File Names:

- CFD.xml
- CFDL.xml
- CFV.xml
- LinkEcg.xs2
- LogFile.txt
- ModalityPermissionsTable.xml
- RawEcg.xs2
- Report_Cardiopulmonary.xml

- ST.cfg
 - Step.xs2
 - StressExamSettings.xml
 - StressExamSummary.xml
 - XSPrintOps.txt
- C:\ProgramData\MedGraphics\XScribe\Command
 - File Names:
 - BreezeLog.txt
 - Mort.txt
 - ToBreeze.cmd
- C:\ProgramData\MedGraphics\XScribe\Current
 - File Names:
 - CFD.xml
 - CFSL.xml
 - CFV.xml
 - LinkEcg.xs2
 - RawEcg.xs2
 - ModalityPermissionsTable.xml
 - Report_Cardiopulmonary.xml

File Compression must not be enabled on the following folder:

- C:\Program Files (x86)\Microsoft SQL Server\MSSQL12.MGCSQLSERVER\MSSQL

Verify and delete (if necessary) the MedGraphics Virtual Store directory.

Delete the Medical Graphics VirtualStore program folder

1. Click on File Explorer, then select the View tab; checkmark the box by **Hidden Items**.
2. Click on the "**This PC**" shortcut, then double click on the following:
 - a. C:\Users\ValuedCustomer\AppData\Local\VirtualStore\ProgramFiles (x86)
3. Delete the MedGraphics folder..

Delete the Medical Graphics VirtualStore registry entry.

1. In the Windows desktop search box, type **regedit**.
2. Browse to HKEY USERS\... 'registry string' ..._Classes \VirtualStore\Machine\Software\WOW6432Node\Medical Graphics Corporation.

Note: Only one of the _Classes registry strings will have the VirtualStore folder.
3. Right Click on the Medical Graphics Corporation folder and click delete.
4. Close the registry editor window.

Disable Virtual Stores:

1. Open the Windows Control Panel.
2. Select Administrative Tools.
3. Select Local Security Policy.
4. Open Local Policies.
5. Open Security Options.
6. Scroll down and double click on User Account Control: Virtualize file and registry write failure to per-user locations.
7. Select 'Disabled' and click OK.

Printer Setup:

For the PDF reports to work properly, the properties of PDF reports need to be updated to Adobe Acrobat Reader from Edge (Microsoft's browser within Windows 10). Edge does not have a File Explorer properties 'Print', so BreezeSuite cannot start a PDF print without this.

1. From the Windows start menu, type "Default Programs."
2. Select "Choose default apps by file type."
3. Scroll down to ".pdf" Adobe Acrobat Document.
4. Click "Choose a default."
5. Select Adobe Reader

In addition, take the checkmark out to let windows control the default printer; by default, it is checked and defaults to the Medgraphics PDF printer, which is suitable for exporting purposes only.

1. From the Windows start menu, type "Printers & Scanner."
2. Scroll down past printer options and uncheck "Let Windows manage my default printer."
3. Pick the appropriate printer for your organization.

BREEZESUITE V8.6 NETWORK CLIENT INSTALLATION

Important: Network SQL Server Database must be installed prior to Network Client installation

Important: Installation of BreezeSuite v8.6 requires Windows Administrator permission.

Important: Ensure your Windows Operating System is up-to-date with the latest updates and restart the computer to ensure there are no pending reboots before starting installation.

Important: Installation of BreezeSuite requires SQL Server Express 2014 SP3. The instructions below provide details on how to upgrade your current SQL Server Express to SQL Server Express 2014 SP3.

Important: If Windows authentication is used for Network SQL database connectivity, the Windows user logged into the computer during installation must be a BreezeSuite Network SQL Database user or member of a valid BreezeSuite SQL Database user group.

Installation Procedure:

Note: BreezeSuite v8.6 supports network client installation without use of a local database. To install BreezeSuite v8.6 with no local database, skip to section 2 “Install BreezeSuite v8.6 BreezeSuite v8.6”.

1. Install SQL Server Express 2014 SP3

- 1.1. Browse to the “Launch.exe” file located on your installation media (USB flash drive, etc.).

- 1.2. Right Click on the “Launch.exe” file and select ‘Run as Administrator’

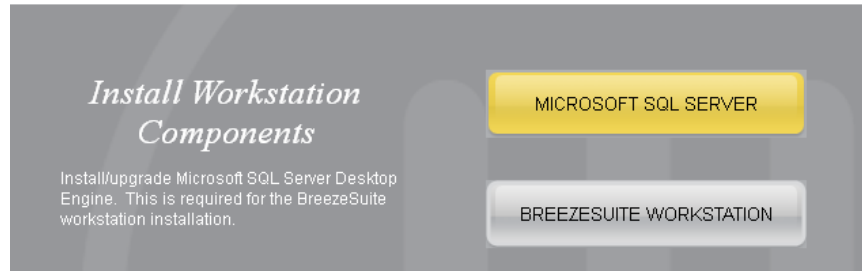

- 1.3. Select ‘INSTALL SOFTWARE’

1.4. Select 'WORKSTATION'

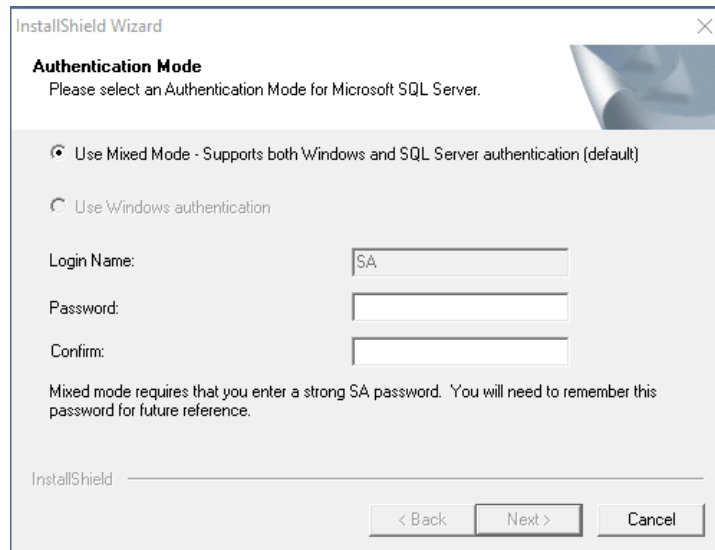

1.5. Select 'MICROSOFT SQL SERVER' button to start SQL Server installation

1.6. Enter the SA password and confirm password the for the SQL Server Express instance

 **Note** This password must be securely stored with the person(s) responsible for administration of the BreezeSuite software and database. This password must be known when performing future software upgrades and database maintenance actions.

 **Important:** Use of a strong password longer than 12 characters, containing upper case alpha, lower case alpha, numeric and special characters is highly recommended

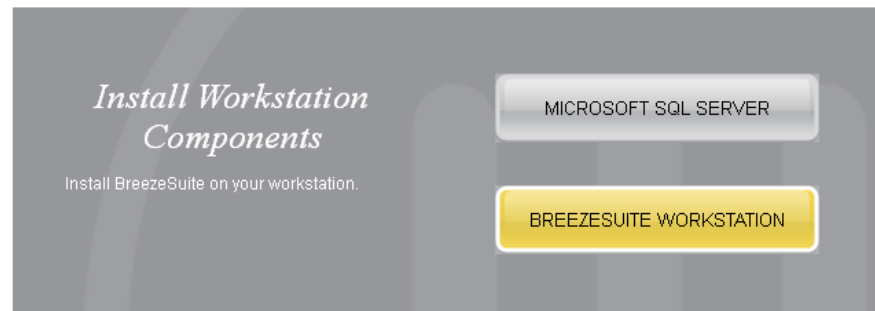

1.7. Wait for the installation process to complete. This process may take several minutes

- 1.8. Select 'OK' when prompted with "Installation of SQL Server Express is complete" message

2. Install BreezeSuite v8.6 Software

- 2.1. Select 'BREEZESUITE WORKSTATION' on the Install Workstation Components screen.

- 2.2. Select 'Next >' at the bottom of the screen Welcome to the InstallShield Wizard... screen

- 2.3. Read the License Agreement and select 'Yes' to accept the terms continue with the installation

 **Note:** A copy of the EULA is provided at the end of this document for review prior to software installation.

2.7 BreezeSuite 8.6 License Screen

- a. Contact MGC Diagnostics support by calling 800-333-4137. Please have your account number, system serial number or sales order number and software registration number displayed on the licensing screen available.

Complete the Name and Company fields with any text data and enter the CD Key provided in the CD Key fields. Select 'Next >' to continue with the installation.

 **Note:** Customers outside the United States must contact their regional MGC Diagnostics distributor to obtain a software license (CD Key).

 **Note:** 60 Day Trial license does not support installation of MultiUser option or connection to a Network SQL Database.

- 2.8 Verify the options you want to install and Select 'Next >' on the "Select Components" screen

2.9 Review the “Choose Destination Folder” location (default destination “C:\Program Files (x86)\Medgraphics\Breeze” is recommended), browse to a different path if desired and select ‘Next >’ to continue

2.10 Enter the “SQL Connection” information

2.10.1 Enter the Network SQL Server Name

2.10.2 Enter the Network SQL Server Instance Name (leave blank if default instance used)

2.10.3 Enter the BreezeSuite Database Names (select ‘Default’ button if default names used)

2.10.4 Select the Network SQL Server Authentication Mode

Note: Windows Authentication is recommended wherever possible

2.10.4.1 If SQL Authentication mode is configured on your Network SQL Server selected, enter the Application User Name and Password.

Important: Custom User Name and strong custom password is recommended when SQL Authentication is used

2.10.5 To install without a local SQL Database (recommended wherever possible), select the “Do Not Install Local Database” option. ☒ Do Not Install Local Database

2.10.6 Select the ‘Test Connection’ button and verify “Success!” message is displayed and select ‘Next >’

2.10.6.1 Possible Error States when performing connection test:

Error State: “Patient Database is incorrect version...”

- Cause: Network SQL Database has not been upgraded

Error State: “Login Failed for user ‘xxxx’ ”

- Potential Cause: Windows User performing installation is not a valid Network SQL Database User (applies to Windows Authentication Mode only)
- Potential Cause: SQL User is not a valid User Name or Password on the Network SQL Database (applies to SQL Authentication Mode only)
- Potential Cause: SQL User does not have DBReader and DBWriter or higher permission to the SQL Database (applies to SQL Authentication Mode only)

Error State: “Cannot open database ‘xxxxxx’ requested by the login. The login failed.”

- Potential Cause: Network SQL Database has not been installed
- Potential Cause: Database name entered is incorrect.
- Potential Cause: Windows Authenticated user performing the installation is not a valid SQL database user (applies to SQL Authentication Mode only)

Error State: “Named Pipes Provider: Could not open a connection to SQL Server”

- Potential Cause: Verify Server Name is correct

Error State: “SQL Server Network Interfaces: Error Locating Server/Instance Specified...”

- Potential Cause: Verify Server Instance Name is correct
- Potential Cause: Network Connection to SQL Server is not established
- Potential Cause: SQL Server Firewall is blocking external connections or ports

2.11 Review the “Start Copying Files” settings and select ‘Next >’ to continue with the installation

2.12 When prompted, enter the Site Name (location name) that will appear on your BreezeSuite generated reports. Select ‘OK’ to continue

2.13 Select ‘Finish’ on the InstallShield Wizard Complete screen.

USB DRIVER INSTALLATION

 **Note:** Required for Platinum Elite™ body plethysmograph, CPFS/D USB™ spirometer and Ultima Series™ systems only.

 **Note:** Elite Series body plethysmograph and physician review software installations can continue to “Security Administrators Guide.”

 **Important:** DO NOT connect the system to the computer until driver installation is complete.

1. Close any applications that may be running.
2. Select the Windows Start menu icon.

3. Select “All Apps” or “All Programs”.

4. Open the MedGraphics folder menu item
 - 4.1 Right Click and Select “Run as Administrator” on the appropriate driver for your Operating System
 - 4.1.1 64-Bit Operating Systems, select ‘WFA USB Driver v2.1 64bit’
 - 4.1.2 32-Bit Operating Systems, select ‘WFA USB Driver v2.1 32bit’
5. The “Welcome to the MedGraphics CP210X USB...” driver installer will appear. Click the ‘Next >’ button
6. Select ‘Finish’ after completion of the driver installation.
7. Power on the MGC Diagnostics system (Platinum Elite Series and Ultima Series only).
8. Connect the MGC Diagnostics system to your computer using the supplied USB cable.
9. Wait for Windows to complete installation of the USB 2.1 device and driver.

BREEZESUITE SOFTWARE LICENSE AGREEMENT

BREEZE SUITE LICENSE AGREEMENT FOR MEDICAL GRAPHICS SOFTWARE

IMPORTANT READ CAREFULLY: This Medical Graphics Corporation License Agreement (Agreement) is a legal agreement between you (either an individual or a single entity) and Medical Graphics Corporation for the software product identified above, which includes computer software and associated media and printed materials, and may include online or electronic documentation (SOFTWARE PRODUCT or SOFTWARE). By installing, copying or otherwise using the SOFTWARE PRODUCT, you agree to be bound by the terms of this AGREEMENT. If you do not agree to the terms of this AGREEMENT, promptly return the unused SOFTWARE PRODUCT to the place from which you obtained it.

Software PRODUCT LICENSE

The SOFTWARE PRODUCT is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The SOFTWARE PRODUCT is licensed, not sold.

1. GRANT OF LICENSE. This AGREEMENT grants you the following rights:

Systems Software. You may install and use one copy of the SOFTWARE PRODUCT on a single computer. If the SOFTWARE PRODUCT includes functionality that enables your single computer to act as a network server, any number of computers or workstations may access or otherwise utilize the basic network services of that server. The basic network services are more fully described in the printed materials accompanying the SOFTWARE PRODUCT.

Storage/Network Use. You may also store or install a copy of the SOFTWARE PRODUCT on a storage device, such as a network server, used only to install or run the SOFTWARE PRODUCT on your other computers over an internal network; however, you must acquire and dedicate a license for each separate computer on which the SOFTWARE PRODUCT is installed or run from the storage device. A license for the SOFTWARE PRODUCT may not be shared or used concurrently on different computers.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.

Limitations on Reverse Engineering, Decompilation and Disassembly. You may not reverse engineer, decompile, or disassemble the SOFTWARE PRODUCT, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

Separation of Components. The SOFTWARE PRODUCT is licensed as a single product. Its component parts may not be separated for use on more than one computer.

Single Machine. The SOFTWARE PRODUCT may only be used with the single computer on which it was first installed.

Rental. You may not rent or lease the SOFTWARE PRODUCT.

Systems Software Transfer. You may permanently transfer all of your rights under this AGREEMENT only as part of a sale or transfer of your single computer system where the SOFTWARE PRODUCT is installed, provided you retain no copies, you transfer all of the SOFTWARE PRODUCT (including all component parts, the media and printed materials, any upgrades, this AGREEMENT and, if applicable, the Certificate of Authenticity), and the recipient agrees to the terms of this AGREEMENT. If the SOFTWARE PRODUCT is an upgrade, any transfer must include all prior versions of the SOFTWARE PRODUCT.

Termination. Without prejudice to any other rights, Medical Graphics may terminate this AGREEMENT if you fail to comply with the terms and conditions of this AGREEMENT. In such event, you must destroy all copies of the SOFTWARE PRODUCT and all of its component parts.

3. UPGRADES. If the SOFTWARE PRODUCT is an upgrade from another product, whether from Medical Graphics or another supplier, you may use or transfer the SOFTWARE PRODUCT only in conjunction with that upgraded product, unless you destroy the upgraded product. If the SOFTWARE PRODUCT is an upgrade of a Medical Graphics product, you now may use that upgraded product only in accordance with this AGREEMENT. If the SOFTWARE PRODUCT is an upgrade of a component of a package of software programs which you licensed as a single product, the SOFTWARE PRODUCT may be used and transferred only as part of that single product package and may not be separated for use on more than one computer.

4. COPYRIGHT. All title and copyrights in and to the SOFTWARE PRODUCT (including but not limited to any images, photographs, animations, video, audio, music, text and applets, incorporated into the SOFTWARE PRODUCT), the accompanying printed materials, and any copies of the SOFTWARE PRODUCT, are owned by Medical Graphics or its suppliers. The SOFTWARE PRODUCT is protected by copyright laws and international treaty provisions. Therefore, you must treat the SOFTWARE PRODUCT like any other copyrighted material except that you may either (a) make one copy of the SOFTWARE PRODUCT solely for backup or archival purposes, or (b) install the SOFTWARE PRODUCT on a single computer provided you keep the original solely for backup or archival purposes. You may not copy the printed materials accompanying the SOFTWARE PRODUCT.

5. DUAL-MEDIA SOFTWARE. You may receive the SOFTWARE PRODUCT in more than one medium. Regardless of the type or size of medium you receive, you may use only one medium that is appropriate for your single computer. You may not use or install the other medium on another computer. You may not loan, rent, lease, or otherwise transfer the other medium to another user, except as part of the permanent transfer (as provided above) of the SOFTWARE PRODUCT.

6. U.S. GOVERNMENT RESTRICTED RIGHTS. The SOFTWARE PRODUCT and documentation are provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (2) of the Commercial Computer Software Restricted Rights at 48 CFR 52.227-19, as applicable. Manufacturer is Medical Graphics Corporation, St. Paul, Minnesota.

MISCELLANEOUS

If you acquired this product in the United States, this AGREEMENT is governed by the laws of the State of Minnesota.

If this product was acquired outside the United States, then local law may apply.

Should you have any questions concerning this AGREEMENT, or if you desire to contact Medical Graphics for any reason, please write: Medical Graphics, 350 Oak Grove Parkway, St. Paul, Minnesota, 55127; or www.Medgraph.com., or contact the Medical Graphics distributor serving your country.

LIMITED WARRANTY

LIMITED WARRANTY. Medical Graphics warrants that the SOFTWARE PRODUCT will perform substantially in accordance with the accompanying written materials for a period of ninety (90) days from the date of receipt. Some states and jurisdictions do not allow limitations on duration of an implied warranty, so the above limitation may not apply to you. To the extent allowed by applicable law, implied warranties on the SOFTWARE PRODUCT and hardware, if any, are limited to ninety (90) days and one year, respectively.

CUSTOMER REMEDIES. Medical Graphics's and its distributors' entire liability and your exclusive remedy shall be, at Medical Graphics's option, either (a) return of the price paid, or (b) repair or replacement of the SOFTWARE PRODUCT that does not meet Medical Graphics's Limited Warranty and which is returned to Medical Graphics. This Limited Warranty is void if failure of the SOFTWARE PRODUCT has resulted from accident, abuse, or misapplication. Any replacement SOFTWARE PRODUCT will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer. Outside the United States, neither these remedies nor any product support services offered by Medical Graphics are available without proof of purchase from an authorized international source.

NO OTHER WARRANTIES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, MEDICAL GRAPHICS AND ITS SUPPLIERS DISCLAIM ALL OTHER WARRANTIES, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, WITH REGARD TO THE SOFTWARE PRODUCT, AND ANY ACCOMPANYING HARDWARE. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS. YOU MAY HAVE OTHERS, WHICH VARY FROM STATE/JURISDICTION TO STATE/JURISDICTION. NO LIABILITY FOR CONSEQUENTIAL DAMAGES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL MEDICAL GRAPHICS OR ITS SUPPLIERS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR ANY OTHER PECUNIARY LOSS) ARISING OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE PRODUCT, EVEN IF MEDICAL GRAPHICS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. BECAUSE SOME STATES AND JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.
