## Micro 6000 Spirometer

Configurator

# Micro 6000 Spirometer

- **Micro 6000 (115 V, 50-60 Hz) base module** Ref: MI-00-09-115
- **Micro 6000 (230 V, 50-60 Hz) base module** Ref: MI-00-09

**Important note** A Micro 6000 always includes the ExpAir software with:

- **Spirometry**
  - Resting spirometry (VC)
  - Forced spirometry (FVC)
  - Maximum voluntary ventilation (MW)
  - Minute tidal ventilation (Vmin)
  - Reversibility (pre/post)
  - Bronchial challenge, multi-level spirometry

**The standard module is vertically mounted.**

Start with the base module and follow this path :

- 1 Device mounting
- 2 Computer
- 3 Trolley

## 1 Device mounting

- Left vertical mounting on trolley Ref: MI-00-11
- Right vertical mounting on trolley Ref: MI-00-15

## 2 Computer See IT Hardware configurator

## 3 Trolley See Trolley configurator

All the options listed are available depending on the products and may be unavailable within some countries.
